Weapon from Xiao

Weapon

Artifacts

Talents

Squads

Conclusion

Xiao is quite picky about weapons, which can create some difficulties. Spears are best for him for crit chance or crit damage. In extreme cases, you can put him a spear to restore energy. Below are the best options in descending order.

- Primordial Jade Winged-Spear
- Staff of Homa
- Deathmatch
- Blackcliff Pole
- Skyward Spine
- White Tassel

Artifacts

The most popular variant for our kitten is two items from sets of Emerald Green Shadow and Gladiator. The Vermillion Hereafter signature set is also suitable, but farming it is already more difficult

Talent's priority

In Xiao's case, auto-attack will be the priority talent for leveling, since it is from it that the damage of attacks in the fall is scaled during the duration of the ultimate. After that, we pump the skill of the ultimate. At will, we pump the elemental skill to level 6-8.

Maim moments

Ultimate Xiao is quite expensive, so you should take another anemo character as a battery with him. Xiao is also a hyper carry and wants to be on the field most of the time, so we pick up supports that buff him with attack power. For Xiao, it is desirable to have a shield, since with an ult he loses HP.

First Variant

Weapon

Artifacts

Talents

Squads

Conclusion

- Xiao
- Kazuha
- Xiang Ling
- Bennet

There are pyro and anemo resonances. Stable maintenance of pyro status on enemies. Kazuha floods Xiao's energy, pulls enemies together and buffs Xiang Ling for bonus pyro damage. Bennet heals and boosts Xiao and Xiang Ling's attack power.

Second Variant

- Xiao
- Sucrose
- Zhongli
- Bennet

Sucrose is just like a battery here. Zhongli gives a shield and cuts resistances. Bennet heals and buffs on attack.

Third Variant

- Xiao
- Venti
- Geo main character
- Bennet

Venti generates energy well with both skill and ult. It also does good damage. The problem is that Xiao's falling hit only hits the bottom mobs in Venti's vortex. But if you put a barrel of geo main character under them... The option is more for a fan.
